

Accessing Trust Center, STP and Compliance Manager

Use Case:

In this walkthrough task we will access the Trust Center and browse through some of its content. Then we will access the Service Trust Portal (STP) and some of its resources and content, and finally we will access Compliance Manager and some of its available resources.

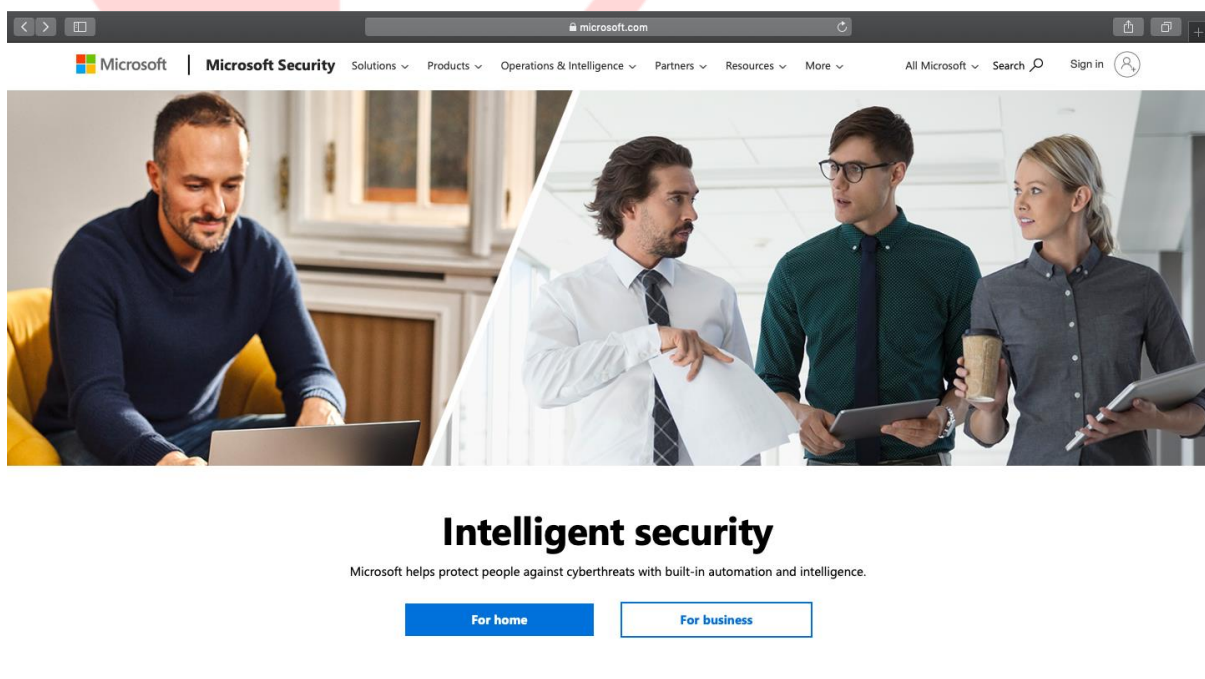

Prerequisites:

You require need an Azure subscription to perform these steps. If you don't have one you can create one by following the steps outlined on the [Create your Azure free account today](#) webpage.

Steps:

Access the Trust Center

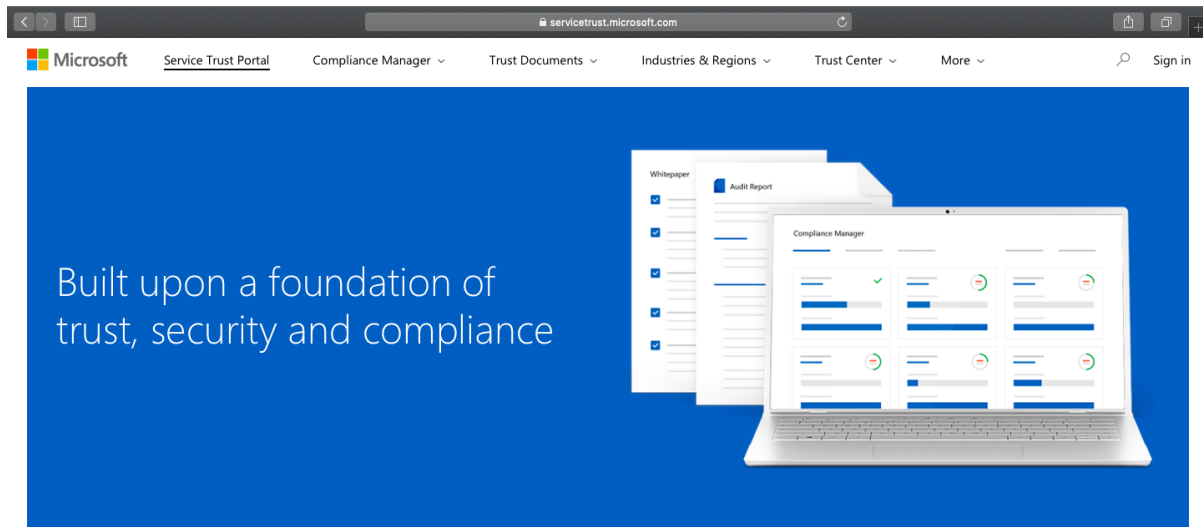

1. Go to the **Microsoft Trust Center** at the URL <https://www.microsoft.com/en-us/trust-center>.
2. Scroll down through the **Trust Center**, and select some of the items such as **Security**, or **Privacy** and follow the links to download and browse some of the available reports.

Follow Microsoft  

Access Service Trust Portal (STP)

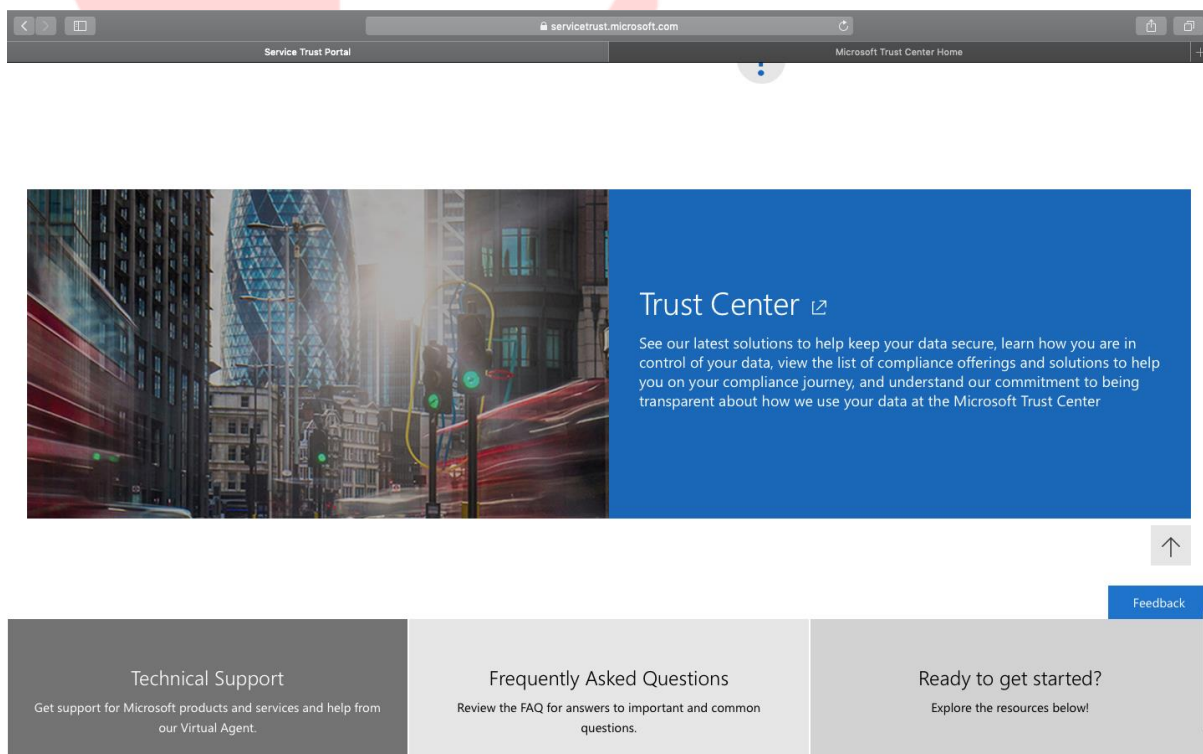

1. Go to the **Service Trust Portal (STP)** at the URL <https://servicetrust.microsoft.com/>

Audit Reports

Review the available independent audit reports for Microsoft's Cloud services, which provide information about compliance with data protection standards and regulatory requirements, such as International Organization for Standardization (ISO), Service Organization Controls (SOC), National Institute of Standards and Technology (NIST), Federal Risk and Authorization Management Program (FedRAMP), and the General Data Protection Regulation (GDPR)

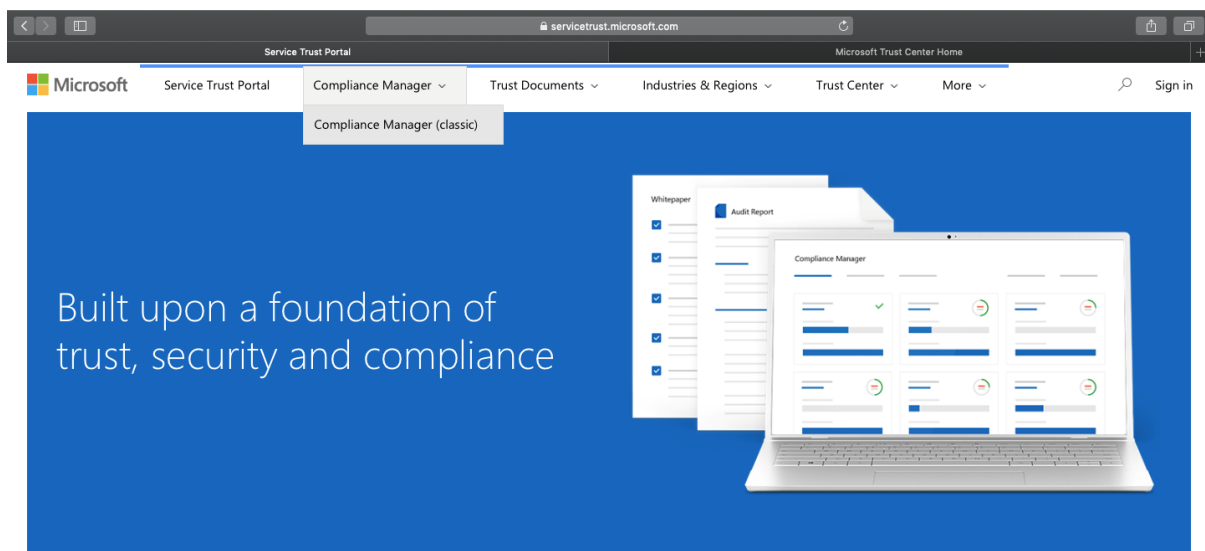

2. Scroll down through the **Trust Center**, and click on **View all audit reports**, and then select some of the industries to filter some of the audit reports.

3. Browse through some of the audit reports, and when finished return to the **Trust Center** home page and browse through some of the other items available on the page, such as **Documents and Resources**, **Industry Compliance**, **Services Risk Assessment** etc.

Access Compliance Manager

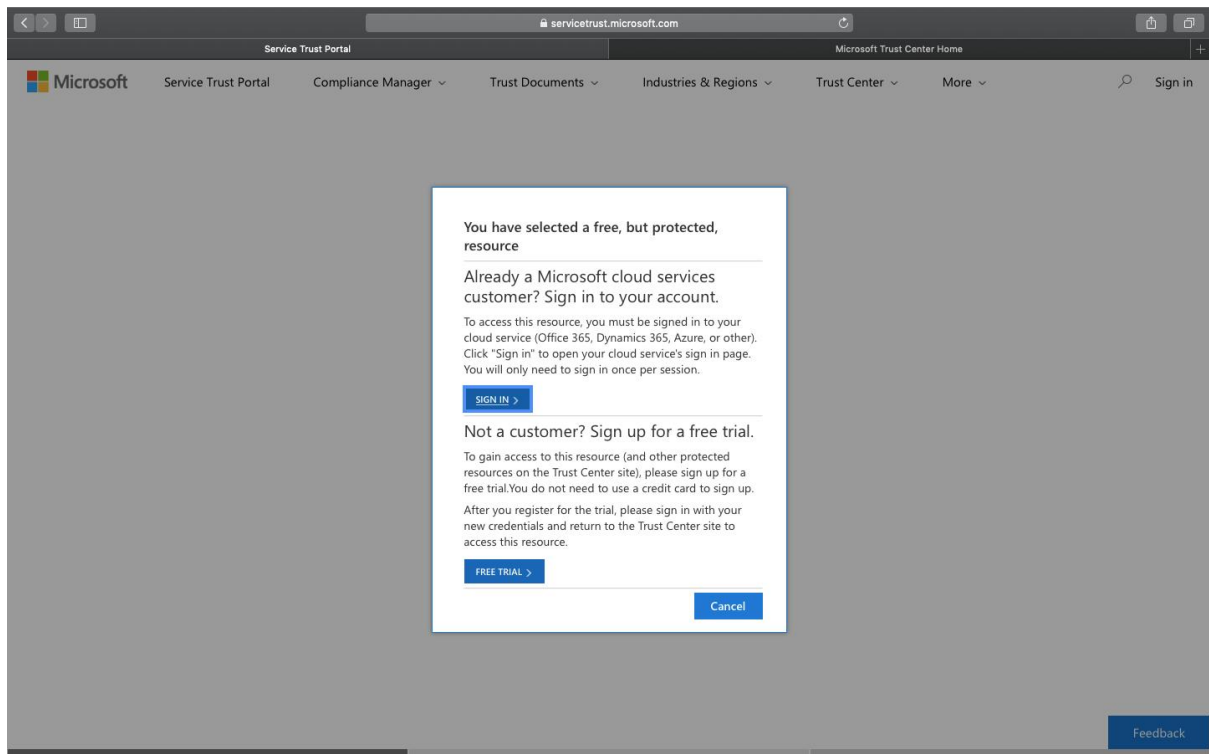

1. On the **Microsoft Service Trust Portal** at the URL <https://servicetrust.microsoft.com/> select **Compliance Manager** from the list of options at the top.

Audit Reports

Review the available independent audit reports for Microsoft's Cloud services, which provide information about compliance with data protection standards and regulatory requirements, such as International Organization for Standardization (ISO), Service Organization Controls (SOC), National Institute of Standards and Technology (NIST), Federal Risk and Authorization Management Program (FedRAMP), and the General Data Protection Regulation (GDPR)

2. When prompted to sign in enter your credentials for your Microsoft account i.e. as stated in the message when signing in to Compliance Manager, **to access this resource, you must be signed in to your cloud service (Office 365, Dynamics 365, Azure, or other)**, click **Sign In**.

3. Once logged in, take some time to browse through the various elements available within **Compliance Manager**.
